Using Natural Language Processing to Inform Public Policy in the Energy Transition

Malte Toetzke

PhD Candidate, Department of Management, Technology, and Economics, ETH Zürich / Visiting Scholar, CEENRG, Department of Land Economy, University of Cambridge

Malte's research focuses on the global transition towards net-zero emissions with the goal to inform public policy through development and applications of novel techniques from data science and machine learning. His main research areas are climate finance, carbon markets, and clean tech innovation. His research has been published and presented in leading academic journals (Nature Sustainability, Nature Climate Change) and machine learning conferences (NeurIPS, ICWSM).

26 January 2023, 3.00 – 4 pm (UK Time)
- In-person: Main Seminar Room (1.25) in the David Attenborough Building
- Online: Zoom. Please **REGISTER** to receive Zoom link on the day of the seminar
